SKILLS

Java, Spring Boot, AWS, Amazon S3, SQL, Microservices, JIRA, Confluence, Git, Github, Jenkins, Elastic Search, EC2, Spring, Datadog, Supply chain management, Procurement Services, Warehouse operation, Agile, Painless Script

KEY ACHIEVEMENTS

Unified catalog management window

Streamlined catalog management with a unified interface, reducing turnaround time by 50%.

Enabled Next-Day Delivery(NDD) for customers

Enhanced inventory distribution, improving delivery ETA and next-day delivery eligibility.

Anti Wardrobing Tag Implementation

Anti-Wardrobing reduced the return rate by 13%.

Vendor Portal Integration

Reduced vendor inquiry and response from 48 to 6 hours.

EXPERIENCE

SDE-1

Hopscotch

📅 01/2023 Present 📍 Bangalore, India

- **Developed a unified catalog management interface**, enabling the catalog team to create PIDs, POs, vendor orders, and reflect POs on the vendor portal from a single interface, reducing turnaround time by **50%**.
Tech Stack Used: AWS S3, cloudfront, Jenkins, Github, Springboot
- **Implemented Open-to-Buy OTB validation**, ensuring the buying team does not exceed OTB limits when placing purchase orders.
- **Designed and implemented an Anti-Wardrobing mechanism**, applying tags to specific product types to reduce fraudulent returns.
- **Integrated PayU transaction status API**, allowing customers to track their refund status directly on the order screen, improving transparency.
- **Optimized inventory distribution from vendors to internal warehouses**, reducing order delivery ETA and increasing eligibility for next-day delivery.
- **Led the integration of the Supplymint Vendor Portal**, facilitating real-time data exchange between departments and reducing vendor inquiry response times from **48 hours to 6 hours**, significantly improving service levels.

Software Development Trainee

Hopscotch

📅 10/2021 12/2022 📍 Bangalore, India

- **Automated the new product creation flow**, significantly improving the **cataloging team's efficiency**.
- **Gained expertise in Unicommerce Marketplace integration and 5Yoho vendor portal integration**.
- **Implemented item-level returns**, allowing customers to return specific items instead of the entire order, enhancing customer flexibility and experience.
- **Developed return tracking milestone visibility**, enabling customers to track the status of their return orders in real time.

SDE Intern

Hopscotch

📅 04/2021 10/2021 📍 Bangalore, India

- **Led the resolution of production issues on the supply side**, ensuring system stability and timely fixes. Developed a deep understanding of **order processing workflows and warehouse operations**. Conducted in-depth analysis of **eCommerce system architecture, process flows, and optimizations**. Gained technical and domain expertise in **eCommerce platforms**, leveraging tools like **Jira and Git** for task management and issue tracking.
- **Automated inventory distribution from vendors to internal warehouses**, optimizing logistics and **reducing internal transportation costs by ₹25 30 lakh per month**.

EDUCATION

Bachelor of Engineering in Computer Engineering

[Mumbai University](#)

📅 07/2021

10+2 Class | CBSE

[The Aditya Birla Public School, Awarpur](#)

📅 06/2016
